**Discover Diamonds at  
CS3 Technology's 10<sup>th</sup> Annual Solutions Client Conference**

For the 10<sup>th</sup> year in a row, CS3 Technology is presenting their annual client conference, **Solutions**. This year's conference theme is "The Diamond Standard". Each conference session is designed to help clients apply to their business the same "4C's of Quality" that is applied to a diamond. Each session will exhibit the highest in:

**Color** – Each session is colorful, engaging and educational.

**Clarity** – The specific focus of each session's topic insures that the attendees will receive clear, concise information on the business issue at hand.

**Cut** – Emphasis on cutting waste and maximizing utilization of resources is top on the list for each session.

**Cost** – The web-based sessions are offered at an affordable fee of only \$40 per session, making it easy for all to attend.

The conference will span three days beginning November 3 and ending November 5, 2009, offering 3 one hour sessions each day. This year's Solutions Conference is not only offering excellent workshops, but a new venue as well. "We are very excited about utilizing the web for our conference this year" said company President Gary Crouch. "We work with firms coast to coast. This virtual Solutions conference will allow all our clients to attend". As is customary with the fine training CS3 Technology has always provided, one CPE credit per session will be earned for each registered participant.

The sessions to be included will be of great value given today's economic climate. "Every business needs improvement to gain productivity with less cost" said Crouch, "that is why we provide this conference each year, to give our clients the opportunity to improve". Topics such as, inventory management techniques, tools to minimize labor costs and tools that increase employee productivity, will be covered. Several sessions focus on utilization of Business Intelligence and the direct correlation to increased profits.

Registrations are being accepted now at [www.GoHere.com](http://www.GoHere.com). The website supplies detailed information regarding subject material, date and time on each session and an easy enrollment process. For more information, give CS3 Technology a call at (877) 496-1600 x 207.
