## eBridge for Sage PFW

eBridge for Sage PFW ERP provides a universal integration solution for your growing business needs. eBridge seamlessly integrates Sage PFW with your various business systems to automatically input and synchronize data. With eBridge integration, you eliminate duplicate data entry and potential errors while saving time and money.

We offer a broad range of services and solutions that enable all companies to quickly, easily and effortlessly comply with customer mandates and reap the benefits of e-commerce. Improve the accuracy, reliability, and speed of information exchange with the eBridge integration solution.

### eBridge integrates with the following business systems:

**EDI (Electronic Data Interchange)** - eBridge links Sage PFW with EDI transactions to streamline the e-commerce process between you and your trading partners.

**CRM (Customer Relationship Management)** - By sharing information between Sage PFW and your CRM system, you only need to access one application to quickly answer customer inquiries regarding orders, product details and invoicing.

**SCM (Supply Chain Management)** - Connect Sage PFW to your vendors' data to simplify your e-commerce procurement process.

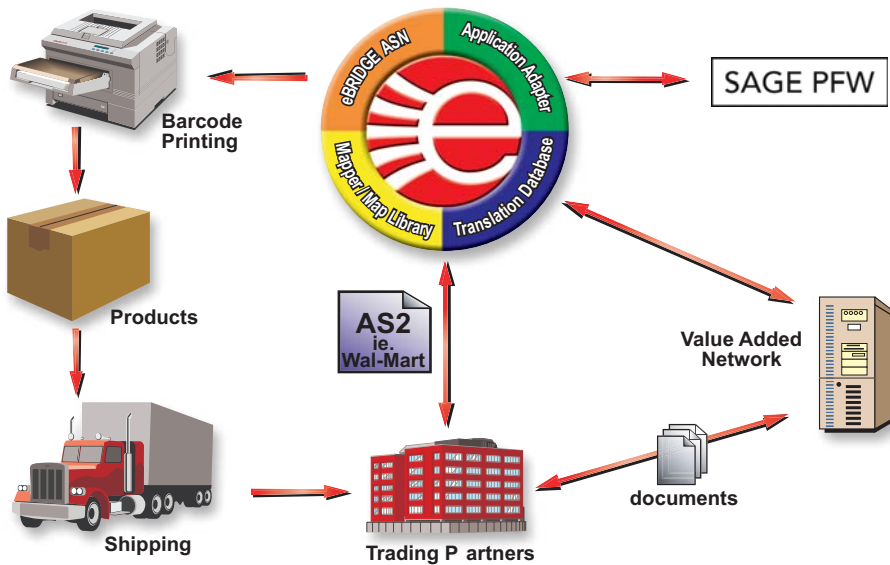

**Webstore** - Prevent the manual entry of customer information into Sage PFW and provide the customer with real-time feedback regarding order status.

Standard EDI Documents	EDI Standards and Formats	EDI Communication
Invoices (810)	ANSI-X12 (HIPAA, VICS, UCS)	VANs
Purchase Orders (850)	XML	AS2
ASN (856)	CSV	FTP
Functional Acknowledgement (997)	EDIFACT	HTTP(s)
Warehouse Shipping Advice (945)	Flat File	e-mail

### Features

- Attended or Unattended Batch Mode for streamlined document processing
- User-defined audit trails, error notices and reports automatically distributed via e-mail
- Ability to interface with all EDI translators

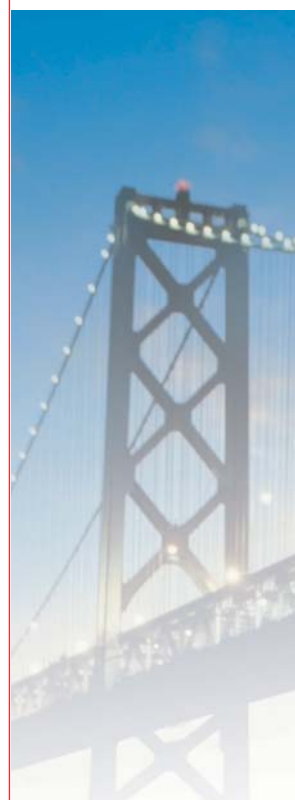

## eBridge for Sage PFW:

Question	Yes	No
Does the prospect of implementing EDI intimidate you?		
Does your organization suffer from Trading Partner chargebacks?		
Is your staff spending more than 1 hour per day entering data?		
Are you aware of all the components involved in an EDI solution?		
Do you have a clear understanding of EDI and e-commerce integration?		
Are you familiar with the benefits that integration can bring to your business?		

Attempting to answer these questions is a cause of real concern and may seem overwhelming. However, eBRIDGE has the answers and can implement the solution to meet all your trading partner requirements, while at the same time making your organization more efficient in the e-commerce process.
